Creative Thinking Process

1. Define the problem:
   - Consider all challenges.
   - Choose one to focus on.
   - Consider different ways to look at this problem.
   - Redefine problem if necessary.

2. Generate solution ideas:
   - Brainstorm till you have lots and lots of possible solutions.
   - Choose the most promising.

3. Plan for action:
   - Consider different ways to implement your chosen idea.
   - Decide which way is the best and formulate a specific plan of action.
