The Junior Forum Quantum Writing course – POWER Writing – gives students a clear framework for organizing their approach to a writing assignment.

We’re all natural writers at heart.

As young children, we were truly uninhibited writers, eager to express ourselves using vivid, creative thoughts and language. As we grew older, we became critical of our writing and began to dread having to do anything that involved putting words on paper.

What we need now is to get back in touch with that child in us who was eager to write down thoughts and ideas. And the way to do that is to not worry about the finished product when we’re just starting the process.

Stop worrying about the finished product – just start writing!
